

It is very difficult to put in to words how grateful my family and I are for what you all are doing for us but I will give it try.

I would like everyone to know that my family and I are very appreciative of everyone's prayers and support. We feel blessed that I work with so many great people that show such selfless acts of kindness. I have made so many great friends in my ten years with University Mechanical. I truly feel that the support and kindness that all of you show truly defines why University Mechanical is the best contractor to work for.

I would have loved to make the trip up for the breakfast but unfortunately am not quite able to make that trip yet. I do look forward to seeing all of you as soon as possible. My doctors are happy with my progress and things are moving on track and hope to be seeing you all very soon.

Thanks again for all your prayers and encouragement.
